Work Experience

Teacher · Najot Ta'lim

2025 – Present

- Teach fullstack web development: Next.js, NestJS, Docker, CI/CD, databases
- Guide students through real-world projects from planning to production deployment
- Conduct code reviews, mentor on clean architecture and professional best practices

Fullstack Developer · Freelance

2025

- Designed, developed and deployed 3 production web applications for real clients
- Handled full cycle independently: requirements, architecture, coding, server setup on DigitalOcean

Projects

Biyron.uz biyron.uz *Next.js · NestJS · PostgreSQL · AI · Click · Payme*

- Personal startup — AI-powered multilingual education platform
- Teacher enters a topic title; AI generates complete lesson: explanation, audio narration, vocabulary, reading, writing exercises and tests
- Custom fine-tuned AI model trained for educational content generation and quality control
- Role-based system: Admin / Teacher / Student · Integrated payment (Click, Payme)

Mrblackmaster CRM www.mrblackmaster.com *NestJS · TypeScript · PostgreSQL · TypeORM · React*

- Full-scale CRM system with web dashboard, REST API backend, and web-bot
- Excel file upload for bulk client data import; contract management with edit capabilities
- Automated overdue payment detection, extra charges, and partial payment logic
- Role-based access control: Admin / Moderator / Seller

NBS Gaz Oil nbsgazoil.uz *NestJS · Prisma · PostgreSQL · DigitalOcean*

- Service platform for CNG (compressed natural gas) stations
- Payment and check tracking system for drivers; full backend architecture and cloud deployment

Tezku.uz tezku.uz *Next.js · Supabase · Payment*

- Phone marketplace: sellers list products, buyers browse, save listings and contact sellers directly
